

**ESSAY QUESTION
SPECIAL INSTRUCTIONS**

This essay question constitutes 1/3 of the exam. It consists of four (4) questions, all of which should be answered. As shown on the next page, the first question is worth 40% of the essay score, the second question worth 30%, the third 20%, and the fourth 10%.

Read the facts carefully. Answers based on incorrect facts are treated as incorrect answers. If you think that important facts are missing or ambiguously stated, make reasonable and explicit assumptions about them, but don't make any assumptions that would make the entire problem vanish. Abbreviate where appropriate. Write legibly on every other line and only one side of each page only.

I won't read illegible answers.

I suggest you look at all parts before you start your answer in order to locate the points you want to make in the right part and not have to repeat yourself more than necessary.
