Graduate Transfer Credit

Candidates for master's degrees may transfer up to six 300-400 level units to the advanced program from graduate coursework completed at other regionally accredited institutions. Students who have earned a master's degree at a regionally accredited institution may be eligible to transfer up to 12 graduate-level units to a GGU master's degree with the approval of the appropriate department chair or program director. All foundation program course requirements may be transferred if applicable courses were completed in prior academic coursework. Students should note that certain 300-400-level course requirements may not be fulfilled by courses taken at other institutions, as designated by the faculty. Exceptions to these requirements will be made only on petition to and approval by the Committee on Admissions and Academic Probation (CAAP).

Students who have completed graduate work at another institution may be admitted with up to six units of advanced program (300-400-level) credit when courses submitted for transfer credit meet all of the following criteria:

- **The course(s) were earned at the graduate level with a grade of B or better and not used toward the completion of a bachelor's degree. Courses with a grade below B including B minus are not transferred.**
- **The course(s) are applicable to the GGU degree objective.**
- **The course(s) were earned at a regionally accredited institution.**
- **The course(s) are approved by the faculty.**
- **Cooperative education units earned may be transferred with faculty approval.**
- **Professional Military Education (PME) or training courses evaluated by the American Council on Education (ACE) may qualify for transfer credit. In considering the ACE recommendation, the university assesses the level and determines the amount of credit.**
- **Courses taken by correspondence are not acceptable for advanced program graduate transfer credit.**
